

“Success leaves clues.”

And these great guests have a number of common traits and messages among them.

Here are my top 15 lessons from the interviews so far.

1

YOU HAVE TO START!

These guests, each and every one of them, at some point in time had made the decision to start. They were scared and ill-prepared, yet they started. And they figured it out, one step at a time. If you wait until you're completely ready, you will never start. One of my favorite quotes is from the great Napoleon Hill: "Action is the real measure of intelligence."

Get into action, start moving, you won't regret it.

WEALTH IS THE ABILITY TO BE ABLE TO DO WHATEVER YOU WANT.

And to do this, I believe you do need enough money. However, money, in and of itself, is not the solution. It is just a tool. Every single guest has talked about wealth and have not put a major emphasis on the money aspect. Yes, this is important, but true wealth is freedom. And that is what we're all searching for. It took me years to figure that out, but our guests make this clear on a regular basis.

“Wealth” is so much more than just money and finances.

3

TO FIND THAT “TRUE WEALTH”, YOU NEED BE ON YOUR “TRUE NORTH.”

When you're doing what you love, you are happier and much better at your work. If you do those two things, guess what? Your success is so much more. And you can't be truly wealthy if you're not truly happy. Do what you love, and find out how you can best provide to the world. For me, it is helping the world with their finances and mindset.

The best way to success is to be you all the way through!

WEALTH ISN'T OVERNIGHT SUCCESS.

So many guests have said they are a “26 year overnight success,” or “30 year success in the making”, or that they “worked their butts off for a couple of years” before they saw big wins. It takes some time and some hard work. If you're willing to sacrifice some work now, so that you can live the rest of your life any way that you want, then true wealth can be yours in all senses of the word!

PASSIVE INCOME IS WHAT CREATES FINANCIAL FREEDOM.

Financial Freedom is achieved when Passive Income > Expenses. Growing up, we are taught to trade time for money. Well, the financially free do not do that. We make money while we sleep. Passive income is a regular stream of income that you receive without little or no effort. You can get passive income from a lot of different ways - real estate, dividends, automated investing, online courses, blogging, royalties, network marketing, music, creating apps, etc. And with the online world today, there are endless options. I am dedicating this year to building my passive income streams immensely

So let's chat and talk about how you can do this with me!

YOU ARE IN CONTROL OF YOUR OWN DESTINY.

You cannot delegate responsibility for your finances or for your future. That is solely your own. You can delegate a lot of things, but who you choose to manage and help you with your money is up to you. No excuses. That's why the tagline is: Take control of your finances. Make more money. Live wealthy... Once you 'take control', the rest is easy. You are listening to YoPro Wealth and you're reading this because you are ready to take control of your financial future.

Now let's go make it happen!

7

YOU NEED A COACH!

Every single guest has shared the same thing - the importance of having coaches! Every single one of them. I was surprised at first, but it makes sense. Olympians have numerous coaches. Professional athletes all have coaches. Truly professional anything have coaches. So, if we want to achieve massive success in our personal, career and financial lives, what do we need? Coaches. I have 4 coaches that help guide me to success now. 4! Find people that you want to become, and reach out to them. Learn from them!

The best investment you can make is in yourself and in your own future.

IT IS POSSIBLE!

Anybody can achieve massive wealth, and it is more simple than most believe. You don't have to be anything special to create wealth. You aren't born to be poor or wealthy. You have the ability to learn, and it is very simple at the end of the day. 'Spend less than you earn and invest the difference wisely' is the simple equation. So, the three elements are: **1)** don't spend more than you need to, **2)** learn how to increase your earnings, and **3)** put your money to work for you, and grow your wealth. That is it.

Anybody can achieve those 3 things quite easily.

11

YOU ARE YOUR OWN BIGGEST ENEMY.

Our biggest limitations are the ones that we put on ourselves. Our own internal demons and what we think is possible for ourselves are our biggest enemy.

Think big, dream big! And don't let you hold yourself back.

THE MINDSET IS KEY!

How you view problems, success and money. Problems are only challenges. Failures are just lessons. And you absolutely have to believe in yourself. If you don't believe in yourself, who will? And the power of the law of attraction... wow, it can do wonders!

It is all about the mindset with everything, especially wealth..

13

YOU CAN CHANGE YOUR CAREER AT ANY TIME.

Most all of our guests jumped around from job to job before they found something that hit home for them. Only a few of them were fortunate enough to stumble on their true calling early on. The rest have gone through a number of positions, companies and industries before they found what is right for them. Many were well into their 40's before they found their career! So, don't get discouraged! You can change at any time. “The two most important days in one's life are 1) the day you are born, and 2) the day you find out why.”

SAVING YOUR WAY TO WEALTH IS NOT THE BEST ROUTE.

You have to have a strong foundation and spend less than you earn, but each guest has gone out and created financial wealth for themselves. They have taken control and taken action. Saving your way to wealth is a long, and challenging road. Going out and creating wealth for yourself is much more exciting and powerful way to really improve your financial position. So, if you want to achieve what these guests have achieved, you'll want to do more than just continue with one working stream of income and saving as much as possible. You'll want to find other ways to make more money or grow your money.

15

MULTIPLE STREAMS OF INCOME IS HOW YOU RAMP UP YOUR FINANCES.

Put your money to work for you. Investing, real estate, online business, network marketing, any side-hustle. These guests have a working income and then an investing income. Or they have numerous passive streams of income. But they all don't rely on one thing. They have multiple options going at any point in time. So, what can you do to add extra streams of income to your wealth equation?

Implement these 15 key lessons into your life, and I guarantee that you will find massive Wealth
